

Eliazar Chodjayev

Platform Engineer | DevOps & Cloud Infrastructure

Israel | +972-50-246-1700 | zenmyx@gmail.com | in/ellie-chodjayev | eliazar.dev

SUMMARY

Platform Engineer with **4+ years** building and operating multi-cloud infrastructure across AWS, GCP, and Azure. End-to-end ownership spanning landing-zone architecture, Kubernetes, CI/CD, observability, and SOC 2-aligned security, from design through production operations.

EXPERIENCE

Platform & DevOps Engineer

Cloud Castles | Cloud consultancy | Full-time | Remote | Nov 2022 - Present

- Architected **20+** production landing zones across AWS, GCP, and Azure using Terraform, Terragrunt, Crossplane, and ACK
- Cut **\$45K+/year** in cloud and tooling costs by eliminating redundant SaaS tooling and right-sizing compute
- Implemented Zero-Trust and SOC 2-aligned security controls (Checkmarx, Orca, WAF, CIS hardening, QRadar SIEM), remediating **all** high and critical-severity findings within SLA
- Reduced release cycle times by **50%+** across GitHub Actions, GitLab CI, Azure DevOps, and Jenkins
- Operated GKE, EKS, and AKS clusters with Helm, ArgoCD, and Karpenter, maintaining **99.9%** uptime

Founder & Sole Engineer

Veritrail | Independent | Part-time | Remote | May 2026 - Present

- Built a multi-tenant platform automating SOC 2 evidence collection - **140+** automated checks mapped across **90** controls spanning SOC 2, CIS AWS L1, and ISO 27001
- Designed agentless cross-account evidence collection via scoped, read-only IAM roles; chose a single-VPS Docker Compose architecture over Kubernetes to match the product's actual operational scale
- Owned the full platform: multi-cloud collection, SSO, RBAC, and 150+ tests in CI

Founding Engineer

SBC Finance | Part-time | Remote | Aug 2024 - Mar 2026

- Shipped a financial trading platform integrating the Interactive Brokers API for live market order execution; architected the system end to end - security, infrastructure, observability, CI/CD - zero to production

Post-Silicon Validation Engineer

Intel Corporation | Contract | Haifa, Israel | Jan 2022 - Jun 2022

- Validated CPU and DDR platform stability through automated stress and reliability testing on Linux; automated operational workflows with Python and Azure DevOps pipelines, reducing manual effort by **75%**

System Administrator

ONE Technologies | Part-time | Haifa, Israel | Aug 2021 - Jan 2022

- Administered Windows Server infrastructure (AD DS, WSUS, WDS, IIS, DFS, GPOs) and core networking (LAN/WAN, DNS, DHCP, TCP/IP, switches/routers)

SKILLS

Cloud & IaC	AWS, GCP, Azure, Terraform, Terragrunt, CloudFormation, Crossplane, ACK, Ansible
Kubernetes	GKE, EKS, AKS, Helm, ArgoCD, Argo Workflows, KEDA, Karpenter, Traefik
CI/CD & DevSecOps	GitHub Actions, GitLab CI, Azure DevOps, Jenkins, AWS CodeBuild/Deploy/Pipeline, Artifactory, SAST, SCA, SBOM, Secret Detection, Checkmarx, Orca, OWASP, WAF, CIS Hardening
Observability	Prometheus, Grafana, Loki, ELK
Languages	Python, Node.js, TypeScript, Bash, PowerShell

EDUCATION & TRAINING

DevOps Engineer Training - DevOps Experts | Oct 2021 - Feb 2022

Microsoft Certified Systems Expert (MCSE) - John Bryce | Apr 2017 - Oct 2017

CERTIFICATIONS

Certified Kubernetes Administrator | AWS Certified Solutions Architect - Associate | HashiCorp Certified: Terraform Associate
